The CUNY Campaign Against Diabetes is pleased to offer a five-day training program on Diabetes Prevention and Management.

The training sessions will be held between the hours of 10 a.m. and 5 p.m., at The Graduate Center of CUNY, located at 365 Fifth Avenue (at East 34th Street).

Undergraduate and Graduate students attending a CUNY College are eligible to apply for the June program. Students planning summer or fall field placements in settings where obesity and diabetes are issues of concern are especially encouraged to apply.

Students will not receive academic credit for the program. However, students who attend all five sessions will receive a \$300 stipend for their participation.

As part of the training, students will be expected to develop a spring or summer project so they can bring some of the knowledge and skills that they develop to their communities.
