Executive Summary York College, CUNY

Using data to gain new insights!

Higher education institutions are increasingly moving towards leveraging data to measure student engagement and identify pathways of success. Your platform currently provides you with the basic analytics on app engagement. This year, we’re excited to announce that we have expanded the analytics to a division level, allowing you to measure and assess the student experience across all departments on one unified platform. The goal is to empower you with actionable data and recommendations to increase engagement and retention at your institution.

The York College, CUNY app is an indispensable tool in supporting the journey of students from orientation to graduation. Today’s student body is diverse and multicultural with constantly evolving challenges and expectations. In our annual student survey:

- 77% of students reported that using the app contributes to a positive feeling of being on campus
- 77% reported that the app makes them feel like they belong to the university community, fostering a sense of community at your institution. Moreover,
- 96% of students would recommend your app to their peers.

A great way to learn about your Campus!

According to our annual student survey, the mobile app is a preferred medium for finding campus information at your institution. Students have immediate access to the entire array of campus services via the app with:

- 81% stating that they were able to learn about campus services
- 75% using the app to inform themselves of extracurricular activities.

Each student has a suite of tools for self regulation and organization to help reduce stress while increasing academic performance and self sufficiency

- 64% of students saying that mobile technology helped them stay organized during their school year
A warm welcome to first year students!

First year students are often the most stressed and at risk population on campus.

- 68% of students said the app helped them get off to a good start at their university
- 42% saying the app helped to reduce stress in their first weeks.
- 74% found it helpful having orientation information on the app.

A strong and supportive mobile community!

Students requiring immediate assistance or feedback are able to communicate via a peer driven, social support network, with

- 90% being confident that their school-related question will be answered on the app.

This platform for informal dialogue eases the burden on busy staff members and administrators, while also enabling students to seek help from their classmates during stressful times outside of regular office hours.
Engagement Highlights for 2016

Adoption and Engagement
All time, the York College, CUNY app has received 3,025 downloads and 1,691 registrations. This represents an adoption rate of 39% on downloads and 22% on registrations.

Academics and Self Regulation
Your students are using the app to regulate their studying habits. This year, students have added 302 courses and 31 to-do’s to their schedule.

Campus Wall Activity
This year, there were 40,899 comments, posts and likes on your campus wall, along with 37,576 peer to peer messages. This shows that students are using the app to connect with the campus community and their friends.

Student Activities Clubs & Events
This year, there were 20,758 clicks on the Clubs tile and 3,219 clicks on the events tile. This shows that students are using the app to learn about student activities on campus and are engaging with clubs and events.

Services
This year, there were 1,637 clicks on the Services tile. This shows that students are using the app to learn about and engage with campus services.

Product Roadmap for 2017
The 2017 product road map is focused on building a smart, virtual assistant to personalize and improve the student experience. Based on global market trends and on student and administrator feedback gathered across over 200 institutions, our focus will on key system integration, campus assessment and personalization of the mobile app.

Key recommendation for 2017
- The top student requested feature was seamless course integration of the app with your LMS platform.
- Given the high penetration of mobile technology on your campus, we recommend using the assessment tools to increase adoption and improve the student experience.
Our data science team have gathered analytics and insights from more than 200 institutions representing over 800,000 students. Here are our top recommendations and best practices that have proven successful in improving student engagement:

### Increase campus adoption

**Recommendations**

1. Use Orientation Tracking & Assessment tools to get real time feedback from First Year students and make the app a part of your orientation registration process.
2. Include a call to action to download the app in admission letters and on your student portal. Students are more likely to see and act on these calls to action.
3. Make the app the prescribed method for daily campus interactions such as event check in and service assessment.

### Seamless academic timetable to support self regulation

**Recommendations**

1. Integrate the app with your LMS and SIS systems so that students can automatically receive the academic and course information they need.
2. Encourage students to use the app as a tool to help organize their studying. Keep track of academic requirements such as course, to-dos, quizzes, exams along with extra-curriculars such as events.

### Improve Student Wellbeing

**Recommendations**

1. Expand the scope of the app to key departments (advising, health services, counselling and wellness) across campus to comprehensively measure student engagement and sentiment.
2. Have staff members and student leaders post introductions on the Campus Feed. This will encourage other students to participate and will allow them to reach out if they need support.
Increase participation in Student Activities (Clubs & Events)

Recommendations
1. Enable event attendance to get actionable feedback on programming and increase adoption.
2. Track flagship campus events throughout the year to get attendance and student feedback (e.g., orientation, homecoming, commencement, exams, parents weekend)
3. Encourage conversation on the Campus wall by adding rich content such as photos from events.

Track and improve Services

Recommendations
1. Enable Service Assessment to get actionable feedback on programming and increase adoption. 85% of students mentioned that they would like the option to provide realtime feedback on their campus experiences such as events and support services. According to our research, our mobile assessment tools yield an student response rate of 80%, an exponential increase over traditional methods (10% 30%).
2. Expand the scope of the app to key departments (advising, health services, counselling and wellness) across campus to comprehensively measure student engagement and sentiment.
Here are the 7 core competency areas to Student Affairs educators. Here we describe each competency and outline how OOHLALA can provide support.

1. Administrative & Management
These include organizational competencies that contribute to the effectiveness and success of the organization, such as promoting university events, serving as a university representative, reporting, recruitment and budgeting.

Our support:
- Providing a digital, mobile platform to enhance student & administrative interactions.
- Facilitate administrative tasks such as event planning and promotion, keeping students informed of important dates and highlighting essential content.
- Integrating with SIS, LMS and SSO systems.

2. Theory & Practice
These include a knowledge and understanding of concepts and principles of student development and learning theories, and the ability to apply them to improve practice.

Our support:
- Provide partners with access to and insights from:
  - Student Engagement Research.
  - Student Development Theory.
  - Literature on Assessment.

3. Help & Advising
These include theories and skills related to providing support, direction, feedback and guidance to individuals and groups.

Our support:
- Provide partners with the tools to apply these theories and skills:
  - Push notifications.
  - Campus wall.
  - Peer to peer communication.
  - Sentiment analysis.

4. Ethical & Legal
These include the ability to assess activities from an ethical and legal perspective.

Our support:
- Complete FERPA compliancy.
- Providing literature and assistance on State & Federal Compliance issues such as Title IX, Sexual Assault, Campus Security and Financial Aid.

</tr>
</thead>
<tbody>
<tr>
<td>These include a knowledge and understanding of concepts and principles of teaching, learning and training theory and how to apply these theories to improve student affairs practice and education.</td>
<td>Provide partners with access to research and insights about program development.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>6. Assessment &amp; Evaluation</th>
<th>Our support:</th>
</tr>
</thead>
<tbody>
<tr>
<td>These include the design and implementation of qualitative and quantitative techniques and tools focused on student learning and satisfaction, student development and other emergent issues.</td>
<td>Provide partners with:</td>
</tr>
<tr>
<td></td>
<td>- Regular efficacy reports that measure and assess the student experience.</td>
</tr>
<tr>
<td></td>
<td>- Assessment and evaluation reports on events, services and other student engagement programs.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>7. Multicultural</th>
<th>Our support:</th>
</tr>
</thead>
<tbody>
<tr>
<td>This includes an understanding and valuing of diverse groups and views, and recognizing the importance of language and culture in creating a more diverse campus.</td>
<td>Extend these values to the digital environment to foster an inclusive and multicultural platform.</td>
</tr>
</tbody>
</table>
Adoption

Purpose
High platform adoption will enable your institution to scale awareness of programs and engage in conversations with a large and diverse number of students.

Adoption Definition
App adoption is the number of total students that downloaded and created an account on your mobile app compared to your total enrollment.

Student Survey Highlights

77%
of students say the app makes them feel like they belong to the university or college community.

74%
of students found it helpful to have the Orientation Schedule on the app.

79%
of students agreed that the app helped them learn about their campus surroundings during the first weeks of university or college.

68%
of students agreed or strongly agreed that the app helped them get off to a good start at university or college.
Adoption Insights is an analysis that we conduct every year to understand which promotional tactics are most effective. These insights are gathered from our 200 institution community that is growing every year. We are adopting the “Theory & Practice” student affairs core competency by assessing and improving our strategies that resulted in a 25% increase in yearly adoption.

**Top Adoption Historical Trends**

1. Adoption from community buzz has increased and is the number one starting point for students finding out about the app. Students are talking about the app more and not needing to perform their own organic searches as much.
2. Social media, the website and student portal are all contributing a much larger role in letting students know about the app.
3. Traditional advertising such as the use of posters and flyers are having less of an effect.
4. Professors and student leaders don't have as much of an impact on letting students know about the app, but staff members are being cited as an increased source of finding out about the app.
Adoption: Case Studies

Chapman

First Year Adoption: 1,893 Downloads 196%

Top Promotion Used: Used the app as the main tool for orientation schedules, group discussions, push notifications and events. Trained all the RA’s on the app and they introduced themselves on the campus wall the week before orientation.

McGill

First Year Adoption: 16,983 Downloads 252%

Top Promotion Used: All orientation registrations (FROSH) were processed through the app resulting in early adoption for FY students.

BayPath

First Year Adoption: 1,658 Downloads 208%

Top Promotion Used: Used event attendance to track all students who attended Orientation events and to get feedback from them in order to make improvements.

AeUSB

First Year Adoption: 602 Downloads 201%

Top Promotion Used: They held a BBQ and asked the students to show they had downloaded the app before getting free hotdogs.
Adoption Recommendations

Pre-Orientation

1. **Use the app as a part of your Orientation Registration Process**
   Build a customized Orientation Registration landing page and use the app as a means for students to register for orientation.

2. **Course Portal**
   Add a call to action to download the app on your course registration page. Students will be visiting this page regularly and instructing them to download and register on the app here is extremely effective.

3. **Admission Letters**
   Inform new students about the app in your acceptance package or acceptance letters and instruct them to download and register. Students are extremely likely to read this package and will act on any instructions they are given.

During Orientation

* New

4. **Implement Orientation Tracking & Assessment**
   Using the app’s event tracking and assessment system, track all students who are attending and participating in Orientation activities. Using the system, you can also automatically collect assessment data to gather feedback and improve the orientation experience for future students.

All Year Round

5. **Prescriptive Method: Make the app part of daily campus interaction**
   Maintain the momentum generated by Orientation and ensure that students continue using the app by making it the prescribed method of on-campus interaction.
There is an extensive body of evidence with regard to academic performance suggesting that differences in low and high achieving students are closely linked to an individual’s level of self-regulation.”

(Kimmerman & Schunk, 2008)

“Equipping students with self-regulatory strategies and positive motivational beliefs earlier on in their studies will prepare and sustain their motivation for more demanding, upper level courses as they progress through their academic career.”

(Kitsantas, Winsler and Huie, 2008)

“Students who are able to manage their time effectively and put themselves in settings that foster rather than distract learning have higher GPAs.”

(Britton & Tesser, 1991; Tuckman, 2003)
Trends: Colleges with Portal & Email Link on their Campus guide receive over 50% more traffic.

These insights were gathered from our annual survey of our growing community of 200 institutions.

Adoption & Self-Regulation Recommendations

1. Integrate the app with your LMS and SIS systems so that students can automatically receive the academic and course information they need.

   Assignments and Exams

   - Thursday, November 17
     - Assignment #1
       - Due: 8:00 AM
   - Monday, November 21
     - Assignment #2
       - Due: 8:00 AM
   - Tuesday, November 22
     - Lab Report #2
       - Due: 8:00 AM

   Grades

   - Fall Term 1
     - Regular
       - Assignment #2
         - 95%

2. Encourage students to use the app as a tool to help organize their studying. Keep track of academic requirements such as courses, to-do’s, quizzes, exams along with co-curriculars such as events.
“Student involvement in campus organizations can affect their satisfaction with college (Cooper, Healy, & Simpson, 1994), drive to achieve, confidence in academic ability (House, 2000), academic performance (Hartnett, 1965), and decisions to leave.”

(Okun & Finch, 1998)

“Well, I am not ready to go back to work.”

(Astin, 1984)

“Some researchers have suggested that the most important element to success and retention in the first year is student involvement.”

Studies have found that both GPA (Boyer & Sedlacek, 1988; Brooks & DuBois, 1995) and retention (Upcraft & Gardner, 1989) are predicted by social support.

Student Activities Recommendations

1. Enable event assessment to track event attendance and student feedback on programming and increase adoption.

2. Track flagship campus events throughout the year to get attendance and student feedback (e.g., orientation, homecoming, commencement, exams, parents weekend).

3. Track federal and state compliance requirement events, such as workshops on financial aid, campus safety and Title IX.

Other

4. Campus wall: share photos from live events to encourage students and attendees to do the same.

5. Send one push notification a week related to your top event for the week.
Service Assessment

Research

“To make an effective contribution to internal improvement processes, views of students need to be integrated into a regular and continuous cycle of analysis, reporting, action and feedback.”

“The student perspective, although it is not the only perspective, has three advantages: it is the view of the person participating in the process, the learner; it is direct; and it can provide ratings on a range of items relevant to prospective students.”

“Informal feedback on programmes is a continuous part of the dialogue between students and lecturers. This should not be overlooked as it is an important source of information at this level for improvement.”

(Harvey, 2003)

Enable Service Assessment to get actionable feedback on programming and increase adoption.

Expand the scope of the app to key departments across campus to comprehensively measure student engagement and sentiment.

**Top departments:** Advising, admissions, career services, financial aid, student help desk, health services (student affairs), counselling & wellness.
“Making compatible friends is essential to retention, and that students’ living arrangements are central to this process. Such friends provide direct emotional support, equivalent to family relationships, as well as buffering support in stressful situations.”

(Wilcox, Winn, and FyvieGauld, 2005)

“New students need support to deal with not only the academic culture shock of adapting to the higher education environment, but also the emotional shock of moving from the familiar home environment to a very different life at university.”

(Wilcox, Winn, and FyvieGauld, 2005)

“Students who are depressed have been found to have lower GPAs when compared to students who are not (Fazio & Palm, 1998), whereas students who are anxious are more likely to drop out than their less anxious peers.”

(Tobey, 1997)

1. Have staff members and student leaders post introductions on the Campus Feed. This will encourage other students to participate and will allow them to reach out if they need support.

2. Monitor the Campus Feed during key times of the year (orientation, exams etc.) to ensure that students are getting the support they need.

3. Invite your multicultural center to participate on the app to create mutual and respectful environment and develop a multiculturally sensitive and inclusive community. The campus wall is a great place to foster this sense of community.
