Subject: Closure for Strategic Planning Committee Academic Year 2017-2018

Dear Committee members,

I want to take this time to thank all the members of the Strategic Planning Committee for your service and your help during the MSCHE accreditation process. This was a critical year in the life of York and your participation on the Strategic Planning Committee was an invaluable contribution to York College.

While many of you will remain on the committee, others will rotate off; but over the next two years you may be called on to assist with other planning and assessment initiatives through the work of taskforces and committees like the General Education Committee and Institutional Assessment Committee. These committees will be tasked with developing and executing assessment plans and activities that will bring us into greater compliance with MSCHE standards.

A restructured Strategic Planning Committee will be charged with assuring greater transparency and connectivity between CUNY strategic goals, York's planning for the future, and the alignment with campus-wide assessment and our budget process. In addition, the Strategic Planning Committee will assure intentional linkages and establish greater communication among the College's planning, assessment, accountability and budget efforts. York College will continue to engage in CUNY's annual Performance Management Process (PMP) in whatever form it takes under new CUNY leadership. Over the years the PMP has provided useful direction to the college while linking us to the overall CUNY mission. On all of these fronts planning, assessment, budgeting and communication, the York College community has considerable work to do as we build on the work of earlier committees including the committee of which you have been a member for the last few years.

Thank you for your service on the Strategic Planning Committee and look forward to your further contributions to advance all of these efforts at York College.

MARCIA V. KEIZS

President
