

YC Professor 101 Evaluation

Once again, appreciation must be expressed for your diligent participation in the yearlong YC Professor 101 professional development seminar series. This professional opportunity allows the College to provide new faculty with information and resources regarding the essentials needed in becoming acclimated to York and to academic life.

Your evaluation of the experience is vital as the next Prof 101 series is developed. Kindly provide your assessment of the topics covered listed below by session. The discussion leaders for topics are included although your assessment should reflect the value of the topic.

Please return your completed survey to DChirico@york.cuny.edu by June 3rd.

Session I
