

The York College Senate
Meeting of Tuesday, November 26, 2019
Senate Plenary - 12:30pm
Room 2M04

AGENDA

1. Call to Order
2. Approval of Minutes: October 29, 2019
3. President's Report
4. Student Caucus Report
5. Faculty Caucus Report
6. Standing Committee Reports
 - Curriculum Committee (Beaton)
 - Governance Committee (Ashton)
 - COACHE (Hoeffner)
7. New Business- TBA
8. Adjournment

The York College Senate
Meeting of Tuesday, November 26th, 2019
Senate Plenary - 12:30pm
Room 2M04

Minutes

Present:

Administrative Senators: Eanes, Meleties, Banrey, Thomas

Faculty Senators: Adams, Amaghionyeodiwe, Apkarian, Ashton, Barnes, Bradbury, Buxenbaum, Donahue, Ellis, Emtage, Henry, Keiler, Massimino, McGee, Meddeb, Moore, Nath, Profit, Rodgers, Sharpe, Silva, Silva-Sibilin, Simpson, Small, E. Vasquez, Wojciechowski

Student Senators: Cerda, Chery, Daniel, Dehkanov, Dhanpaul, Dixon, Fnu, Francis, Gordon, Harun, Hussain, Kaur, Loswijk, Ortega, Ramsaroop, Sarmin, Veeria

Guests: Joann Fellows (Registrar), Laura Beaton (Biology, Curriculum), Sabrina Schachtt (student?)

47 members recorded attendance, quorum was reached.

Agenda

1. Call to Order: President Eanes called the meeting to order at 12:36 pm
2. Approval of Minutes: October 29th, 2019
Sen. Ashton made a motion to approve minutes; It was seconded by N. Donahue.
Vote results: all in favor, 0 against, and 0 abstentions. The motion passed.
3. President's Report (B. Eanes)
 - a. Shared congratulations on Thanksgiving feast, and acknowledged administrators serving the food.
 - b. Met with Disability services and listened to their concerns. Re-emphasized that accommodation is a law.
 - c. Addressed revenue generating opportunities, reviving entrepreneurial work of college, grant development, activities in several venues, temporary food services in Café by January.
 - d. Capital projects: PAC, Faculty Dining Room, thank you to SGA for replacing classroom chairs.
 - e. Had budget conversations with CUNY: Access to success, Pedagogy, Faculty hiring, workforce readiness, campus facilities.
 - f. Provost started an academic advising group, see him to give input.

- g. Commencement planning underway.
- h. Middle States prepping for Spring report.
- i. Setting date for Spring symposium.
- j. Organizing leadership retreat in Spring.

4. Student Caucus Report (K. Fnu)

- a. Homecoming: 1820 guests attended, it was a success.
- b. Ecofest with Senator Wayne was a success.
- c. Thanks to VP Banrey for helping to get the new classroom chairs in place.
- d. Thanksgiving Feast: Serving 900 from 12-2pm, serving 300 from 5-7pm. Thanks to Laura and Rosa for organizing.
- e. Christmas Tree/Menorah lighting: Scheduled for December 10th, 12-2pm. Childcare center kids (age 1-4) invited for gifts and Santa Claus. Thanks to VP Banrey for announcing on that day.
- f. Winter coat drive underway (500 coats collected at SGA office). Seeking other offices to set up donation boxes.

Discussion ensued: IP Eanes added that the Children's center is under capacity and work is being done to bring it up to full capacity.

5. Faculty Caucus Report (W. Ashton)

Sen. Ashton acknowledged Thanksgiving, gave wishes to all. He thanked SGA for the new classroom desks. He thanked SGA for bringing up campus morale with the homecoming event and Thanksgiving feast.

6. Standing Committee Reports

- Curriculum Committee (Beaton): Report attached in Appendix A.

Five points were presented from the executive summary of the committee. All motions passed uncontested.

New Courses (3): W. Ashton made a motion to accept as a block, Seconded by N. Donahue

Vote results: all in favor, 0 against, and 0 abstentions. The motion passed.

Course Changes (3): W. Ashton made a motion to accept as a block, Seconded by N. Donahue

Vote results: all in favor, 0 against, and 0 abstentions. The motion passed.

Major redesign (3): A. Barnes made a motion to accept as a block, Seconded by W. Ashton

Vote results: all in favor, 0 against, and 0 abstentions. The motion passed.

Minor redesign (1): W. Ashton made a motion to accept as a block, Seconded by L. Emtage

Vote results: all in favor, 0 against, and 0 abstentions. The motion passed.

New Minor (1): W. Ashton made a motion to accept as a block, Seconded by N. Donahue

Vote results: all in favor, 0 against, and 0 abstentions. The motion passed.

- Governance Committee (Ashton): Report attached in Appendix B.

Several changes to the charter were presented.

Discussion: SGA is working on amending the bylaws by the end of the year, to add representation for graduate students. The charter change will reduce the senate by 10 members (5 faculty and 5 students). The registrar suggested clarifying the wording for the changes to the CAPS committee from "grade change" to "grade appeal."

Votes: None required

- COACHE (Hoeffner): Delayed until a later meeting, administrators were serving the Thanksgiving lunch in the atrium.

7. New Business

- a. Y. Small reminded the senators to check their email for the 1-question survey about changing the December 10th, plenary meeting to Dec. 12th. (Survey email attached in Appendix C). IP Eanes took a straw poll on the senate floor, 22 hands were raised. Acknowledged that 35 members are needed to reach quorum. Discussion: 5 members said they didn't receive the E-mail. Request for handwritten E-mails to be placed on the sign-in sheet. 17 members had already responded to the survey.
- b. IP Eanes invited S. Rodgers to provide an update on the accreditation process in the Dept. of Social Work. Site visit went well, only minor revisions needed, prep for moving to the next step underway.
- c. IP Eanes invited L. Keiler to provide an update on the accreditation process of the Dept. of Teacher Education. Accreditation process fully passed, no revisions needed.

8. Adjournment

Motion to adjourn by W. Ashton. Seconded by N. Donahue.

Vote results: all in favor, 0 against, and 0 abstentions. The motion passed.

The meeting was adjourned at 1:15 pm.

Minutes submitted by Y. Small (2019-2020 Senate Secretary)

APPENDIX

A

Executive Summary
November 2019 Curriculum Items

1. New course

1.1. Business

1.1.1.MKT 349 Marketing and Societal Well-being

1.2. Biology

1.2.1.BIO 312 Animal Behavior

1.2.2.CTM 517 SAS Programming

2. Course changes

2.1. Business

2.1.1.BUS 230, BUS 237, BUS 250, BUS 281, BUS 360, BUS 362, BUS 414, BUS 416, BUS 420, BUS 425, BUS 495

Prefixes changed from BUS to AVIA, course descriptions shortened.

2.1.2.BUS 410

Prefix changed from BUS to AVIA, course description shortened, course made writing intensive.

2.2. Health and Human Performance

2.2.1.MS 488 and MS 489

Prerequisites updated to include First Aid and CPR certification

3. Major redesign

3.1. Business

3.1.1. Aviation

Course prefixes changed from BUS to AVIA, list of elective courses is broadened.

3.2. Biology

3.2.1.BS Biology and BA Biology

List of electives expanded to include new Animal Behavior course

3.2.2.Clinical Trial Management

List of electives expanded to include new SAS programming course

4. Minor redesign

Executive Summary
November 2019 Curriculum Items

4.1. Biology

List of electives expanded to include new Animal Behavior course.

5. New minor

5.1. Business

5.1.1. FAA Dispatcher

Recently created FAA dispatcher courses are bundled together in a minor.

Textbook

Lee and Kotler (2019) Social Marketing: Behavior Change for Social Good, 6ed, SAGE
Publication, ISBN-13: 978-1544351490

Course Description:

This course is designed to examine current theory and knowledge in the field of social marketing, and explore marketing's role in solving societal problems.

Course Objectives:

Throughout the course, marketing techniques and practices will be examined and applied to social issues and behavioral change. More specifically, you will be able to:

- Explain the roles and responsibilities of marketing in society and give examples of how this marketing knowledge can positively influence public behavior.
- Identify and analyze relevant the societal issues and behavior through the social marketing theories and skills.
- Produce, implement and evaluate a social marketing plan.

Method of Evaluation

Students will be evaluated on their performance in class, written exams, and assignments. The relative contribution of each of the different criteria towards the final grade is listed below.

| | | | |
|------------------------------|-----------------------|---------------|---------------|
| <i>Attendance</i> | <i>10%</i> | | |
| <i>Individual assignment</i> | <i>10%</i> | | |
| <i>Group Project</i> | <i>20%</i> | | |
| <i>Exam I, II and Final</i> | <i>60% [20% each]</i> | | |
| 97-100% = A+ | 87-89.9% = B+ | 77-79.9% = C+ | 67-69.9% = D+ |
| 93-96.9% = A | 83-86.9% = B | 73-76.9% = C | 60-66.9% = D |
| 90-92.9% = A- | 80-82.9% = B- | 70-72.9% = C- | 0-59.9% = F |

Evaluation Criteria Details

1. Examinations (60%). Three exams will be given based on content from lectures, the textbook, and class discussions. All exams are closed-book, and closed-notes. While students are encouraged to study together and share notes in advance, all exams are strictly an individual effort.

Missed Exams

All students must take exams at their scheduled times. If you are late to an exam, you will not get extra time to complete it.

MAKEUP examinations for exams will **not** be given unless you have valid reasons. Valid reasons for missing an exam include a death in the family or severe illness (in this case, you must present a proof of medical emergencies). Invalid reasons include schedule conflicts, excessive workload, inadequate preparation, and travel plans. In addition, you must contact me about your intended absence prior to the test, if possible.

If an exam is not taken as scheduled and the absence from that examination is permitted in advance or excused after the fact by me, Makeup exams will be scheduled at the earliest possible date. Students missing an exam without prior notification and permission from the professor will receive a grade of zero for that exam.

2. Group Project (20%). Groups of students will develop a social marketing plan to combat a major social issue. Each group will be expected to provide a proposal of the topic, to present their findings, and provide resources to substantiate the presentation. The presentation will be worth 10%. Presentation date will be on the last week of semester. Each group will turn in a paper the day they present. The paper will be worth 10%. Specific guidelines will be posted online.

Project Submission

Late submission of project is accepted. However, your group will have points deducted unless otherwise stated.

3. Individual Assignment (10%). You will be asked to read and summarize each chapter of the textbook and/or reading articles. Each summary must be typed and posted on Blackboard by due date. Each chapter summary should be in the range of 1000 - 1200 words. Due dates will be announced on Blackboard. If you do not meet the requirement, you will have points deducted for the assignment.

Individual Submission

Late submission of assignment is accepted. However, you will have points deducted for late submission of assignment unless otherwise stated.

4. Attendance (10%).

Class attendance is mandatory. The attendance will be taken each lecture by me passing a roster in class. If you find it necessary to leave class early on any given day with a valid reason, you should inform me before class and choose an aisle seat. Otherwise, an early departure will be counted as an absence with regard to the Attendance Policy.

If absence is anticipated, you should inform me as soon as possible. Excused absences are allowed only if verifiable written documentation is provided to me, in person, on the first day you return to class following your absence. For instance, for absence due to sickness, you must present a proof of medical emergencies.

If you have more than one (1) undocumented absences, you will have points deducted. For example, two absences – 7%; three absences – 4%; four absences – 1%; five and more – 0%

[If this course is offered as a hybrid (or online) class, the following sentence will be added: *Please note that participation in online discussions is considered a form of attendance in this hybrid (or online) class. (You should post at least one response per discussion topic by due date; late posting will not be counted as participation)*]

You are responsible for the materials covered in each lecture and absence from class does not alter this responsibility. If you are absent from class, you should obtain information regarding assignments and course materials covered during their absence from classmates.

Grading Policy

This class follows grading scales provided by York College. Final Grade will be given as the letter grades based on the numerical values carried to one decimal place, **with no rounding**.

Communication

To message the entire class, I will use Blackboard's email system to send any announcements that may come up during the semester (e.g. assignments, notification of grading, etc.). Please contact me via **your York email** for any class related issues. Email will often provide you with the quickest response, and also serves as a reminder for me to reply. Please note that I will not respond to your email if you use your personal email rather than York email.

Technology Requirements and Resources

- Students are required 1) to have access to a computer and the internet and 2) to have a York College e-mail address and access to the CUNY Portal, Blackboard, and the York College Library Database.
- Students need the ability to use word processing software. If you are using a word processing software other than MS Word, please save your documents in Rich Text Format (RTF).
- The Educational Technology Department has provided the following links to provide more informational resources for students:
 - Hybrid Course Information and Support: (all these links can be accessed from this page)
: <http://www.york.cuny.edu/it/acet/online-hybrid-course-support>
 - Self-paced tutorials
: <http://www.york.cuny.edu/it/acet/blackboard/student> (for Blackboard)
: <http://www.york.cuny.edu/it/webteam/eportfolios/tutorials> (for ePortfolio)
 - IT Helpdesk hours and contact information:
: <http://www.york.cuny.edu/it/service-delivery-unit/service-desk/hours-of-operation>

Student Resources

In the event of a weather-related or other college cancellation, visit the [http:// www.york.cuny.edu](http://www.york.cuny.edu) website for immediate information. The York College Counseling Center is committed to providing a broad range of high quality, innovative, and ethical services that address the psychological, educational, social, and developmental needs of York students. Please review the college website for more information.

Students with Disabilities

Students with documented disabilities who believe they may need accommodations in this class are encouraged to contact The Office of Services for Students with Disabilities, located in room AC-1G03, which is a subdivision of the Counseling Center and within the Division of Student Development, so that the professor can be notified of your reasonable accommodation needs. "Reasonable accommodation" is

the term used to describe individualized services to facilitate the student with a disability's adjustment and development throughout his or her course of study.

Academic Integrity

Each student is expected to perform with academic integrity throughout the semester. All students are bound by York College Academic Integrity Policies and Procedures. Academic dishonesty includes, but is not limited to: cheating, plagiarism, obtaining unfair advantage, falsification of records and official documents. These are all punishable by penalties which include failing grades, suspension and expulsion. Please review the Academic Policy and Procedure guideline document on the college website to obtain complete details.

Syllabus/Course Changes Policy

I reserve the right to make changes to the content and scheduling of topics, readings, assignments, etc.

Note: This detailed schedule is TENTATIVE and is subject to change by the instructor (**✖ some of topics or theories in this course may not be covered by the textbook**)

Week 1 CHAPTER 1. Defining and Distinguishing Social Marketing
CHAPTER 2. 10-Step Strategic Planning Model

Week2 CHAPTER 3. Research Options
CHAPTER 4. Behavior Change Theories, Models, and Frameworks

Week3 CHAPTER 5. Steps 1 & 2: Social Issue, Purpose, Focus, Situation Analysis
CHAPTER 6. Step 3: Selecting Priority Audiences

Week4 Review I

Week5 Exam I

Week6 CHAPTER 7. Step 4: Behavior Objectives and Target Goals
CHAPTER 8. Step 5: Audience Insights

Week7 CHAPTER 9. Step 6: Crafting a Desired Positioning
CHAPTER 10. Step 7: Product: Creating a Product Platform

Week8 CHAPTER 11. Step 7: Price: Determining Incentives and Disincentives
CHAPTER 12. Step 7: Place: Making Access Convenient and Pleasant

Week9 Review II

Week10 Exam II

Week11 CHAPTER 13. Step 7: Promotion: Deciding on Messages, Messengers, and Creative Strategies
CHAPTER 14. Step 7: Promotion: Selecting Communication Channels

Week12 CHAPTER 15. Step 8: Monitoring and Evaluation
CHAPTER 16. Step 9: Budget and Funding Plans
CHAPTER 17. Step 10: Implementation and Sustaining Behaviors Plans

Week13 Review III

Week14 Group Project Presentation

Week15 Final Exam

Rationale: The study of Animal Behavior is highly relevant to diverse fields in biology, such as behavioral genetics, psychopharmacology, neuroscience, ecology and conservation biology. Currently no Animal Behavior course is offered by the Biology Department.

IRP Code: 02893 (Biology - BA), 35584 (Biology – BS)

BIO 312 Animal Behavior

Course Description:

3 hours (lecture); 3 credits. Prerequisites: Biological Principles I (Bio 201). Intended for Biology majors. The course will introduce students to basic approaches to the scientific study of animal behavior. The first half of the course will focus on mechanisms of behaviors and their ontogeny (proximate causes); while the second half will focus on the adaptive value and evolution of behaviors (ultimate causes). Throughout the course, students will encounter examples demonstrating methods for measurement and analysis of behavior, and will learn to analyze and interpret behavioral data.

Learning Outcomes:

1. Learn about the three major approaches to the study of animal behavior: Ethology/Behavioral Ecology, Comparative Psychology, and (Neo) Behaviorism.
2. Learn to think about animal behavior in terms of proximate and ultimate causes.
3. Apply key theoretical concepts to selected animal behaviors (e.g. song learning, foraging and predator avoidance, mating systems, cooperation, territoriality, communication and spatial navigation).
4. Learn about methods for measuring behavior; analyze the relative advantages and shortcomings of discrete measurements (ethograms) versus continuous measurements. Apply the acquired knowledge to interpret scientific data presented in figures and tables.
5. Discuss the relationship between animal and human behavior: learn how findings from non-human animal studies inform the study of human behavior.

Grading:

Exams: 60% (20% each)

Final exam: 30%

Two assignments: 10% (5% each)

Students who accumulate 97.0% or more points will earn an A+, 93.0-96.9% an A, 90.0-92.9% an A-, 87.0-89.9 a B+, 83.0-86.9% a B, 80.0-82.9% a B-, 77.0-79.9 a C+, 73.0-76.9 a C, 70.0-72.9 a C-, 67.0-69.9 a D+, 60.0-66.9 a D and 59.9 or lower an F.

Course materials:

- The course is lectures only. Students are encouraged to take notes and participate in class. Lecture slides will be posted on blackboard.

- Textbook: Rubenstein and Alcock, 2019, *Animal Behavior* 11th edition, Sinauer Associates, Inc. Publishers. ISBN: 1605355488. Additional reading materials will be posted on blackboard (see course schedule).
- The exams format is 50% multiple choice and 50% short answer questions.
- There will be two homework assignments: 1. Organize, plot and interpret raw measurements from an animal behavior study (students could choose one of several data sets that will be made available on blackboard). 2. Read a scientific article (select one out of several posted on blackboard), and write a short summary.

Tentative schedule

| Week | Topic | Suggested reading |
|-------------|--|---|
| 1 | Introduction Mechanisms of behavior (tropisms and taxis; reflexes) | Alcock, Chapter 10 Gallistel, Chapter 1 |
| 2 | Mechanisms of behavior (internal oscillators; fixed action patterns) | Gallistel, Chapters 2 and 4 |
| 3 | Measuring behavior: discrete and continuous methods Observation and experimentation | Burkhardt, 2010a, 2010b. |
| 4 | Development of behavior | Alcock, Chapter 11 |
| 5 | Learning and plasticity | Gould and Marler, 1987 |
| 6 | Orienting in space and time | Tolman, 1948 Roenneberg and Merrow, 2005 |
| 7 | Sensory systems and sensory-motor integration | von Uexkull, 1957. Alcock, Chapter 12 |
| 8 | Animal Communication | Alcock, Chapter 4 |
| 9 | Molecular mechanisms of behavior (hormones and pheromones; genes and behavior) | Alcock, Chapter 13 |
| 10 | Introduction to behavioral ecology: natural selection and behavior | Alcock, Chapter 1 |
| 11 | Foraging behavior | Alcock, Chapter 5 |

| | | |
|----|--|--------------------------|
| | Predation and parasitism | |
| 12 | Sexual selection and reproductive behavior Mating systems and parental care | Alcock, Chapters 7 - 9 |
| 13 | Social behavior; kin selection | Alcock, Chapters 2 and 3 |
| 14 | Modeling behavior | Alcock, Chapter 6 |
| 15 | Animal cognition and welfare Human behavior | Alcock, Chapter 14 |

Academic Integrity

By enrolling in this course, students agree to act with honesty and integrity. Academic dishonesty includes, but is not limited to, cheating, plagiarism, collusion, sabotage, and falsification of records. It is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension, and expulsion. For definitions and an explanation of specific policies, see the College's Academic Integrity Policy on the York College Website:

<http://york.cuny.edu/president/legal-compliance/legal-affairs/cuny-legal-policiesprocedures/Academic-Integrity-Policy.pdf/view?searchterm=academic+integrity>. Should the instructor become aware of any suspicious dishonest activity, the instructor is required by College policy to submit a report of suspected academic dishonesty (cheating, plagiarism, damage to lab materials, etc.) to the Department Chair and the Dean of Students office. This report becomes part of your permanent file and may result in serious

penalties. If a student is found guilty of Academic dishonesty and received a penalty, the grade affected by this penalty can not be dropped.

Plagiarism (York College's Academic Integrity Policy)

Plagiarism is the act of presenting another person's ideas, research or writings as your own. The following are some examples of plagiarism, but this is not an exhaustive list:

- Copying another person's actual words without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.
- Using information that is not common knowledge without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.

Internet plagiarism includes submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, and "cutting & pasting" from various sources without proper attribution.

Students who plagiarize will be brought before the Academic Integrity Committee for disciplinary action.

Policy on INC grades

A student who, because of extenuating circumstances, is absent from the final examination and has completed the work for the course with a passing average may be assigned an INC grade at my discretion. I must be consulted (in person, by phone or by e-mail) within 24 hours of the final exam to be considered for this option. If approved, the student will have up to three weeks in the subsequent semester within which to take the final and have the grade resolved. If not resolved, the INC grade will be changed to FIN by the Registrar's Office and be considered an F when computing the academic index.

A student who has taken the final examination, but, because of extenuating circumstances, has not completed the work for the course, and has a passing average may, at my discretion, receive an INC grade. The student must receive my permission for this option before the last day of class. If I agree, the student will have up to 10 weeks in the subsequent semester to complete the work and have the grade resolved. If not resolved in this time frame, the INC will be changed to FIN by the Registrar's Office and be considered an F when computing the academic index.

Accommodations for disabled students

Students with disabilities who will be taking this course and may need disability-related accommodations should visit the following website for information of accessibility resources.

<http://www.york.cuny.edu/it/acet/online-hybrid-course-support/accessibility-resources>

Student Support Services

Outside class, York College Student Support Services provides counselling, tutoring, computer resources and study skills workshops to improve your academic performance. Please visit AC-3E03 or visit their web site for more information:

<http://york.cuny.edu/student-development/support-services/services-activities>.

Rationale: The proposed course complement the current MS program in Clinical Trial Management by adding and an elective course of 3 credits focused in SAS programming. This course is essential for individuals who want to specialize within the fields of Clinical Trial Management and Clinical Data Management, and thus, they must excel in writing their own SAS programs to analyze clinical trials data. The overall goal of this course is to provide the student with the skills necessary to perform SAS programing to access, analyze, and report large clinical database.

IRP Code: 39251

**Clinical Trial Management
Introduction to SAS programming**

Course Number: CTM 517

Lecture:

Instructor:

Office:

Phone:

E-mail:

Office Hours:

Course description:

3 hrs. lecture; 3 credits

An introduction to the SAS programming environment, including program design, importing data, dataset creation and processing, statistical analysis, and creating tables and graphs.

Prerequisites: Department permission.

Learning Objectives: Following completion of the course, the students will have the programming skills in SAS and they will be able:

- a. To write SAS syntax
- b. To importe/exporte data into SAS
- c. To process conditional data
- d. To modify data using functions such as subset and transform
- e. To record data
- f. To analyze and reporte data in SAS

Text:

- 1) The Little SAS Book: A Primer, 5th Edition (Required)
Lora D. Delwiche, Susan J. Slaughter

Grading Policy: Final grade will be determined as follows:

| | | |
|------------|-----|-----|
| Quizzes | 20% | |
| Homeworks | | 20% |
| Exams | | 25% |
| Final Exam | | 35% |

Students who accumulate 97.0% or more points will earn an A⁺, 93.0-96.9% an A, 90.0-92.9% an A-, 87.0-89.9 a B+, 83.0-86.9% a B, 80.0-82.9% a B-, 77.0-79.9 a C+, 73.0-76.9 a C, 70.0-72.9 a C-, 67.0-69.9 a D+, 60.0-66.9 a D and 59.9 or lower an F.

Lecture Schedule (subject to change)

| Date | Topic |
|---------|---|
| Week 1 | Introduction to SAS |
| Week 2 | Understanding SAS syntax |
| Week 3 | Basic SAS programming tools |
| Week 4 | Importing/Exporting data into SAS |
| Week 5 | Creating permanent files in SAS |
| Week 6 | Transforming variables and Recoding variables |
| Week 7 | Conditional processing |
| Week 8 | EXAM |
| Week 9 | Concatenating, interleaving, and merging SAS Files I |
| Week 10 | Concatenating, interleaving, and merging SAS Files II |
| Week 11 | Formatting columns I |
| Week 12 | SAS for statistical analysis |
| Week 13 | Creating reports in SAS Tables and Graphs I |
| Week 14 | Creating reports in SAS Tables and Graphs II |
| Week 15 | FINAL EXAM |

College Policies:

INC Grades:

The following overview is condensed from York's Grading Policies website:

<http://york.cuny.edu/academics/policies/grading-policies>

A student who, because of extenuating circumstances, has not taken the final examination and/or completed the work for the course and has a passing average may be assigned an INC grade. The student, in consultation with the instructor, has up to 10 weeks in the subsequent semester to complete the work and have the grade resolved even if not registered in the subsequent semester. Grade changes resolving INC grades must be received by the Office of the Registrar by the last day of the 10th week of

classes of the subsequent semester (See Academic Calendar for exact due date). Grades received after the deadline will not be processed unless the student has obtained approval from the Committee on Academic Standards.

The grade of INC is not considered in computing the academic index. However, if a grade change is not received by the Office of the Registrar within the above specified limits, the grade of INC is changed to FIN. This grade is considered an F grade when computing the academic index. When compiling the Dean's List INC grades are calculated as F.

W/*WN/WU Grades:

The following overview is condensed from York's Grading Policies website:

<http://york.cuny.edu/academics/policies/grading-policies>

In the case of a withdrawal from a course, three symbols are used:

W, signifying withdrawal from a course without penalty, which is recorded on the student's record after the end of the 3rd week of classes;

*WN signifying that a student never attended the course; and

WU signifying an unofficial withdrawal from a course (see Procedures for Change of Program and Withdrawal from a Course).

In computing the academic index, W and *WN are not counted, but WU counts as a failure.

Policy on Academic Integrity:

York College Policy and Procedures on Academic Integrity can be found at:

<http://www.york.cuny.edu/academics/academic-affairs/academic-integrity-officer/york-college-policy-and-procedures-on-academic-integrity>

Policy on Accommodations for Disabled Students:

Information about the services provided to students at York College can be found at the Office of Services for Students with Disabilities, located in room AC-1G02, and on-line at:

<http://york.cuny.edu/student-development/ossd>

Rationale: Changing AVIA 410 to an upper division writing intensive class is in line with program learning goal 2.4 “Students can differentiate ethical vs. unethical activities, and identify conflict of interest situations and other situations that compromise business integrity,” as well as offering greater opportunity for students to explore subjects discussed in written form. ENG 126 is a prerequisite recommended by the Writing Intensive Advisory Committee for upper-level WI courses. Changing the course prefix to AVIA clarifies that it is in the Aviation discipline, recognized by the College in 2018 with creation of the master’s degree in Aviation. The course description has been changed for brevity and to better reflect actual course content

The City University of New York

York College

BUS 410 Ethical Issues in Aviation

Professor: Paul E. Cline
Department: Business and Economics
Office: Academic Core 2B06-D
Email: pcline@york.cuny.edu
Office Phone: 718-262-2512
Office Hours: Tuesday and Thursday 1200-1400

Ethics issues in Aviation focuses on current concerns and trends, to reflect the changes that have occurred under deregulation, with a focus on major themes in civil aviation ethics, theoretical frameworks, employee responsibility, diversity in aviation, and unmanned aerial systems. **THIS IS AN UPPER DIVISION WRITING INTENSIVE COURSE.** All students are required to take three WI

courses before graduating. Two courses must be in the lower division of the curriculum (at the 100- or 200- level) and one must be in the upper division (at the 300- level or above) within the major design (as is BUS 410).

This designation does not change the structure of this course as it has been taught. Rather, it acknowledges that this course meets the standards of a WI course as specified by CUNY and has therefore earned this designation. The formal writing assignments for the course are described below. This work is meant to enhance your understanding of writing as a process and writing for the discipline of Aviation Management.

Prerequisites:

1. Junior status

Required Text:

Hoppe, E. ed. (2011). *Ethical Issues in Aviation*. New York: Routledge, 314 pages (available online at York Library).

Riza, S.M. (2013). *Killing Without Heart: Limits on Robotic Warfare in an Age of Persistent Conflict*. Washington D.C.: Potomac Books, 256 pages.

Sparrow, M. (2001). *The Regulatory Craft: Controlling Risks, Solving Problems, and Managing Compliance*. Washington: Brookings Institution Press. 370 pages (available online at York Library).

American Psychological Association. (2009). *Publication Manual of the American Psychological Association, 6th Ed.* Washington, D.C.: American Psychological Association, 272 pages.

Course Outcomes

1. Understand how ethics can be incorporated into key business decisions
2. Learn to identify common ethical issues in aviation business
3. Identify, analyze, and understand how business people make ethical decisions and handle ethical issues
4. Identify the various ethical issues raised by unmanned aerial vehicles in regards to business, privacy, national sovereignty, and war
5. Gain and develop an understanding of the writing process including topic formation, research, writing, and editing.

Blackboard:

You are required to check Blackboard regularly. Along with your York email it will be the primary form of communication for this class. Not checking email or Blackboard are not excuses for missing important information and/or changes to the schedule.

Writing Requirements:

Writing Intensive courses are subject-area courses that build on the foundation of writing courses in the curriculum. In this course you will practice and expand the skills of reading, critical thinking, and writing by incorporating guided writing assignments.

As a Writing Intensive course, the major component of your grade will be a research project consisting of four steps:

1. Research Proposal
 2. Annotated Bibliography
 3. Rough Draft
 4. Final Paper
-
- A. The **RESEARCH PROPOSAL** is a 250 word (one page, double spaced) summary of your proposed research topic. This assignment is worth 5% of your total grade.
 - B. The **ANNOTATED BIBLIOGRAPHY** is a list of your sources with a short, one paragraph narrative for each item explaining how this source relates to your topic. First give the citation for the source in APA format, then add the descriptive paragraph. There is no set length for this section since it depends on the number of sources you have. In a paper of this length a minimum of 15-20 different peer reviewed and academic sources is normal. This assignment is worth 10% of your total grade.
 - C. The **ROUGH DRAFT** is an imperfect copy of your final paper. This is the most important step in the writing process. Make no mistake about it, writing is editing and this is where the serious work of editing begins. I read each rough draft carefully and make detailed suggestions for improvement. This stage can be painful, but it also the most important. I will edit one draft of the paper. This assignment is worth 10% of your total grade.

- D. The **FINAL DRAFT** is your finished product. It is worth a full 50% of your final grade. Both the rough and final drafts must be in APA format, with one inch margins, 12 point font, and include a title page and list of references. The final product is to be a minimum of 5000 words (20 pages) in length, not including Title Page and References.
- a. Excessive use of figures and illustrations is not appropriate under APA. The *Publication Manual of the American Psychological Association, 6th Ed* is very specific about when and how figures and illustrations may be used. Please note, figures and illustrations are not included in the word and page count. If they add value to the paper, use them; if not, leave them out.
 - b. A word on length. The paper is a minimum of 20 pages of solid academic writing. That said, quality is better than quantity. You will not receive a better grade because you tried to increase your page count with extraneous filler. Make every sentence and paragraph count.

A word of caution: this is a writing intensive course. Procrastination is not an option. You will not be able to complete these assignments in the week running up to the due date. Substandard work will result in you failing the course and having to retake it before graduation. **Make a rigid timeline and stick to it.**

Electronic Devices:

I encourage you to use your laptop or tablet in class. Any use of these devices for other than course work will result in you being asked to leave the class and any points awarded that day forfeited.

There is absolutely **NO TEXTING** in class. Not only it is extremely rude, it is a distraction. If you must answer a text or call, quietly exit the room by the back door and deal with the emergency. If you have to leave class twice, you are no a distraction and will be asked to leave and any points awarded for that day will be forfeit.

| GRADING: | Max |

| D+ | 67.0%-69.9% |
| D | 60.0%-66.9% |
| F | 0-59% |

Academic Honesty Policy:

A fundamental principle of academic, aviation and community life is honesty. Violation of this ethical concept will result in penalties ranging from a grade of "F" in the course to dismissal from York College. Academic dishonesty includes but is not limited to: cheating, plagiarism, misrepresentation of student status, and resume falsification. Plagiarism includes, but is not limited to: the use by paraphrase or direct quotation, the published or unpublished work of another person without full and clear acknowledgment; unacknowledged use of materials prepared by another person or agency engaged in selling or otherwise providing term papers or other academic materials; and commercialization sale or distribution of class notes without the instructors' permission. The use of unauthorized material, communication with another student during an examination, attempting to benefit from the work of other students, or attempting to aid another student, and other similar behaviors which defeat the purpose of examinations and individual assignments is unacceptable. Please note that all cases of plagiarism will be turned in to York College administration and student services organizations that deal with unethical behavior.

Accommodations:

It is York College policy to provide on a flexible and individualized basis reasonable accommodations to students who have disabilities that may affect their ability to participate in course activities or to meet course requirements. If you have a documented disability that requires an accommodation, please notify me immediately.

Diversity:

The Aviation Management curriculum represents the contributions of diverse populations and reflects that knowledge comes in a variety of forms and that students possess a multitude of learning styles. Students from all backgrounds and perspectives are welcome in the class.

Weather Days:

The best way to receive the latest information about weather closings is through CUNY Alert (<http://www.cuny.edu/news/alert.html>); to register, you go through the CUNY portal. You can then choose where to have messages sent. Once CUNY Alert goes into action, the weather closing is then posted on the York website. The call/message comes somewhere between 5:00 and 6:00 am. The tough decision is when the College is open but the weather is prohibitive for your commute. Here, you have to exercise your best judgment. There is no heroism in putting yourself and others at risk! Remember that as an Aviator good judgment will keep you and others alive.

Please provide an executive summary of your proposal

The proposed Movement Science revised major design streamlines the program by eliminating concentrations (two). The proposed revision to the MS 488 and MS 489 fieldwork courses is to add proof of a valid First Aid/CPR certification or equivalent coursework as a pre-requisite. Both changes are in accordance with CoAES accreditation requirements.

| Credits | 2 | Credits | N/C |
| Description | This supervised experience provides the student the opportunity to apply knowledge and skills acquired in the Movement Science program. With guidance from a qualified supervisor and Movement Science faculty, the student engages in activities designed to enhance professional growth. Students will complete 6 hours field experience weekly, accumulating a total of 90 hours of off-campus experiential learning. | Description | N/C |

Goal number two for the Aviation Management BS degree states, "Creating graduates that demonstrate competency in the various areas of Aviation Management." Having two 400 level course dealing with airport and aviation management as program electives is counter to this goal. In order to remain credit hour neutral, two lower division classes are moved to program elective status. Also adding AVIA 100, 200, 300, & 400 and BUS 210 to the list of approved Program Electives to offer greater flexibility to students. Changing BUS 410 to an upper division writing intensive class is in line with program learning goal 2.4 "Students can differentiate ethical vs. unethical activities, and identify conflict of interest situations and other situations that compromise business integrity," as well as offering greater opportunity for students to explore subjects discussed in written form. Some courses changed to hybrid in order to better meet the scheduling and learning needs of our increasingly diverse student population (more adult learners). Finally, changing the course identifiers to AVIA to better streamline branding and consistency with the Masters in Aviation and Dispatcher Program.

| | |

Rationale:

Course changes made to better meet Program Learning Goals. Changing the course prefix to AVIA clarifies that it is in the Aviation discipline, recognized by the College in 2018 with creation of the master's degree in Aviation. The electives are being increased to accommodate new department offerings

Textbook

Lee and Kotler (2019) Social Marketing: Behavior Change for Social Good, 6ed, SAGE
Publication, ISBN-13: 978-1544351490

Course Description:

This course is designed to examine current theory and knowledge in the field of social marketing, and explore marketing's role in solving societal problems.

Course Objectives:

Throughout the course, marketing techniques and practices will be examined and applied to social issues and behavioral change. More specifically, you will be able to:

- Explain the roles and responsibilities of marketing in society and give examples of how this marketing knowledge can positively influence public behavior.
- Identify and analyze relevant the societal issues and behavior through the social marketing theories and skills.
- Produce, implement and evaluate a social marketing plan.

Method of Evaluation

Students will be evaluated on their performance in class, written exams, and assignments. The relative contribution of each of the different criteria towards the final grade is listed below.

| | | | |
|------------------------------|-----------------------|---------------|---------------|
| <i>Attendance</i> | <i>10%</i> | | |
| <i>Individual assignment</i> | <i>10%</i> | | |
| <i>Group Project</i> | <i>20%</i> | | |
| <i>Exam I, II and Final</i> | <i>60% [20% each]</i> | | |
| 97-100% = A+ | 87-89.9% = B+ | 77-79.9% = C+ | 67-69.9% = D+ |
| 93-96.9% = A | 83-86.9% = B | 73-76.9% = C | 60-66.9% = D |
| 90-92.9% = A- | 80-82.9% = B- | 70-72.9% = C- | 0-59.9% = F |

Evaluation Criteria Details

1. Examinations (60%). Three exams will be given based on content from lectures, the textbook, and class discussions. All exams are closed-book, and closed-notes. While students are encouraged to study together and share notes in advance, all exams are strictly an individual effort.

Missed Exams

All students must take exams at their scheduled times. If you are late to an exam, you will not get extra time to complete it.

MAKEUP examinations for exams will **not** be given unless you have valid reasons. Valid reasons for missing an exam include a death in the family or severe illness (in this case, you must present a proof of medical emergencies). Invalid reasons include schedule conflicts, excessive workload, inadequate preparation, and travel plans. In addition, you must contact me about your intended absence prior to the test, if possible.

If an exam is not taken as scheduled and the absence from that examination is permitted in advance or excused after the fact by me, Makeup exams will be scheduled at the earliest possible date. Students missing an exam without prior notification and permission from the professor will receive a grade of zero for that exam.

2. Group Project (20%). Groups of students will develop a social marketing plan to combat a major social issue. Each group will be expected to provide a proposal of the topic, to present their findings, and provide resources to substantiate the presentation. The presentation will be worth 10%. Presentation date will be on the last week of semester. Each group will turn in a paper the day they present. The paper will be worth 10%. Specific guidelines will be posted online.

Project Submission

Late submission of project is accepted. However, your group will have points deducted unless otherwise stated.

3. Individual Assignment (10%). You will be asked to read and summarize each chapter of the textbook and/or reading articles. Each summary must be typed and posted on Blackboard by due date. Each chapter summary should be in the range of 1000 - 1200 words. Due dates will be announced on Blackboard. If you do not meet the requirement, you will have points deducted for the assignment.

Individual Submission

Late submission of assignment is accepted. However, you will have points deducted for late submission of assignment unless otherwise stated.

4. Attendance (10%).

Class attendance is mandatory. The attendance will be taken each lecture by me passing a roster in class. If you find it necessary to leave class early on any given day with a valid reason, you should inform me before class and choose an aisle seat. Otherwise, an early departure will be counted as an absence with regard to the Attendance Policy.

If absence is anticipated, you should inform me as soon as possible. Excused absences are allowed only if verifiable written documentation is provided to me, in person, on the first day you return to class following your absence. For instance, for absence due to sickness, you must present a proof of medical emergencies.

If you have more than one (1) undocumented absences, you will have points deducted. For example, two absences – 7%; three absences – 4%; four absences – 1%; five and more – 0%

[If this course is offered as a hybrid (or online) class, the following sentence will be added: *Please note that participation in online discussions is considered a form of attendance in this hybrid (or online) class. (You should post at least one response per discussion topic by due date; late posting will not be counted as participation)*]

You are responsible for the materials covered in each lecture and absence from class does not alter this responsibility. If you are absent from class, you should obtain information regarding assignments and course materials covered during their absence from classmates.

Grading Policy

This class follows grading scales provided by York College. Final Grade will be given as the letter grades based on the numerical values carried to one decimal place, **with no rounding**.

Communication

To message the entire class, I will use Blackboard's email system to send any announcements that may come up during the semester (e.g. assignments, notification of grading, etc.). Please contact me via **your York email** for any class related issues. Email will often provide you with the quickest response, and also serves as a reminder for me to reply. Please note that I will not respond to your email if you use your personal email rather than York email.

Technology Requirements and Resources

- Students are required 1) to have access to a computer and the internet and 2) to have a York College e-mail address and access to the CUNY Portal, Blackboard, and the York College Library Database.
- Students need the ability to use word processing software. If you are using a word processing software other than MS Word, please save your documents in Rich Text Format (RTF).
- The Educational Technology Department has provided the following links to provide more informational resources for students:
 - Hybrid Course Information and Support: (all these links can be accessed from this page)
: <http://www.york.cuny.edu/it/acet/online-hybrid-course-support>
 - Self-paced tutorials
: <http://www.york.cuny.edu/it/acet/blackboard/student> (for Blackboard)
: <http://www.york.cuny.edu/it/webteam/eportfolios/tutorials> (for ePortfolio)
 - IT Helpdesk hours and contact information:
: <http://www.york.cuny.edu/it/service-delivery-unit/service-desk/hours-of-operation>

Student Resources

In the event of a weather-related or other college cancellation, visit the [http:// www.york.cuny.edu](http://www.york.cuny.edu) website for immediate information. The York College Counseling Center is committed to providing a broad range of high quality, innovative, and ethical services that address the psychological, educational, social, and developmental needs of York students. Please review the college website for more information.

Students with Disabilities

Students with documented disabilities who believe they may need accommodations in this class are encouraged to contact The Office of Services for Students with Disabilities, located in room AC-1G03, which is a subdivision of the Counseling Center and within the Division of Student Development, so that the professor can be notified of your reasonable accommodation needs. "Reasonable accommodation" is

the term used to describe individualized services to facilitate the student with a disability's adjustment and development throughout his or her course of study.

Academic Integrity

Each student is expected to perform with academic integrity throughout the semester. All students are bound by York College Academic Integrity Policies and Procedures. Academic dishonesty includes, but is not limited to: cheating, plagiarism, obtaining unfair advantage, falsification of records and official documents. These are all punishable by penalties which include failing grades, suspension and expulsion. Please review the Academic Policy and Procedure guideline document on the college website to obtain complete details.

Syllabus/Course Changes Policy

I reserve the right to make changes to the content and scheduling of topics, readings, assignments, etc.

Note: This detailed schedule is TENTATIVE and is subject to change by the instructor (**✖ some of topics or theories in this course may not be covered by the textbook**)

Week 1 CHAPTER 1. Defining and Distinguishing Social Marketing
CHAPTER 2. 10-Step Strategic Planning Model

Week2 CHAPTER 3. Research Options
CHAPTER 4. Behavior Change Theories, Models, and Frameworks

Week3 CHAPTER 5. Steps 1 & 2: Social Issue, Purpose, Focus, Situation Analysis
CHAPTER 6. Step 3: Selecting Priority Audiences

Week4 Review I

Week5 Exam I

Week6 CHAPTER 7. Step 4: Behavior Objectives and Target Goals
CHAPTER 8. Step 5: Audience Insights

Rationale: The study of Animal Behavior is highly relevant to diverse fields in biology, such as behavioral genetics, psychopharmacology, neuroscience, ecology and conservation biology. Currently no Animal Behavior course is offered by the Biology Department.

IRP Code: 02893 (Biology - BA), 35584 (Biology – BS)

BIO 312 Animal Behavior

Course Description:

3 hours (lecture); 3 credits. Prerequisites: Biological Principles I (Bio 201). Intended for Biology majors. The course will introduce students to basic approaches to the scientific study of animal behavior. The first half of the course will focus on mechanisms of behaviors and their ontogeny (proximate causes); while the second half will focus on the adaptive value and evolution of behaviors (ultimate causes). Throughout the course, students will encounter examples demonstrating methods for measurement and analysis of behavior, and will learn to analyze and interpret behavioral data.

Learning Outcomes:

1. Learn about the three major approaches to the study of animal behavior: Ethology/Behavioral Ecology, Comparative Psychology, and (Neo) Behaviorism.
2. Learn to think about animal behavior in terms of proximate and ultimate causes.
3. Apply key theoretical concepts to selected animal behaviors (e.g. song learning, foraging and predator avoidance, mating systems, cooperation, territoriality, communication and spatial navigation).
4. Learn about methods for measuring behavior; analyze the relative advantages and shortcomings of discrete measurements (ethograms) versus continuous measurements. Apply the acquired knowledge to interpret scientific data presented in figures and tables.
5. Discuss the relationship between animal and human behavior: learn how findings from non-human animal studies inform the study of human behavior.

Grading:

Exams: 60% (20% each)

Final exam: 30%

Two assignments: 10% (5% each)

Students who accumulate 97.0% or more points will earn an A+, 93.0-96.9% an A, 90.0-92.9% an A-, 87.0-89.9 a B+, 83.0-86.9% a B, 80.0-82.9% a B-, 77.0-79.9 a C+, 73.0-76.9 a C, 70.0-72.9 a C-, 67.0-69.9 a D+, 60.0-66.9 a D and 59.9 or lower an F.

Course materials:

- The course is lectures only. Students are encouraged to take notes and participate in class. Lecture slides will be posted on blackboard.

- Textbook: Rubenstein and Alcock, 2019, *Animal Behavior* 11th edition, Sinauer Associates, Inc. Publishers. ISBN: 1605355488. Additional reading materials will be posted on blackboard (see course schedule).
- The exams format is 50% multiple choice and 50% short answer questions.
- There will be two homework assignments: 1. Organize, plot and interpret raw measurements from an animal behavior study (students could choose one of several data sets that will be made available on blackboard). 2. Read a scientific article (select one out of several posted on blackboard), and write a short summary.

Tentative schedule

| Week | Topic | Suggested reading |
|------|--|---|
| 1 | Introduction Mechanisms of behavior (tropisms and taxis; reflexes) | Alcock, Chapter 10 Gallistel, Chapter 1 |

Academic Integrity

By enrolling in this course, students agree to act with honesty and integrity. Academic dishonesty includes, but is not limited to, cheating, plagiarism, collusion, sabotage, and falsification of records. It is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension, and expulsion. For definitions and an explanation of specific policies, see the College's Academic Integrity Policy on the York College Website:

<http://york.cuny.edu/president/legal-compliance/legal-affairs/cuny-legal-policiesprocedures/Academic-Integrity-Policy.pdf/view?searchterm=academic+integrity>. Should the instructor become aware of any suspicious dishonest activity, the instructor is required by College policy to submit a report of suspected academic dishonesty (cheating, plagiarism, damage to lab materials, etc.) to the Department Chair and the Dean of Students office. This report becomes part of your permanent file and may result in serious

penalties. If a student is found guilty of Academic dishonesty and received a penalty, the grade affected by this penalty can not be dropped.

Plagiarism (York College's Academic Integrity Policy)

Plagiarism is the act of presenting another person's ideas, research or writings as your own. The following are some examples of plagiarism, but this is not an exhaustive list:

- Copying another person's actual words without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.
- Using information that is not common knowledge without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.

Internet plagiarism includes submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, and "cutting & pasting" from various sources without proper attribution.

Students who plagiarize will be brought before the Academic Integrity Committee for disciplinary action.

Policy on INC grades

A student who, because of extenuating circumstances, is absent from the final examination and has completed the work for the course with a passing average may be assigned an INC grade at my discretion. I must be consulted (in person, by phone or by e-mail) within 24 hours of the final exam to be considered for this option. If approved, the student will have up to three weeks in the subsequent semester within which to take the final and have the grade resolved. If not resolved, the INC grade will be changed to FIN by the Registrar's Office and be considered an F when computing the academic index.

A student who has taken the final examination, but, because of extenuating circumstances, has not completed the work for the course, and has a passing average may, at my discretion, receive an INC grade. The student must receive my permission for this option before the last day of class. If I agree, the student will have up to 10 weeks in the subsequent semester to complete the work and have the grade resolved. If not resolved in this time frame, the INC will be changed to FIN by the Registrar's Office and be considered an F when computing the academic index.

Accommodations for disabled students

Students with disabilities who will be taking this course and may need disability-related accommodations should visit the following website for information of accessibility resources.

<http://www.york.cuny.edu/it/acet/online-hybrid-course-support/accessibility-resources>

Student Support Services

Outside class, York College Student Support Services provides counselling, tutoring, computer resources and study skills workshops to improve your academic performance. Please visit AC-3E03 or visit their web site for more information:

<http://york.cuny.edu/student-development/support-services/services-activities>.

Rationale: The proposed course complement the current MS program in Clinical Trial Management by adding and an elective course of 3 credits focused in SAS programming. This course is essential for individuals who want to specialize within the fields of Clinical Trial Management and Clinical Data Management, and thus, they must excel in writing their own SAS programs to analyze clinical trials data. The overall goal of this course is to provide the student with the skills necessary to perform SAS programing to access, analyze, and report large clinical database.

IRP Code: 39251

**Clinical Trial Management
Introduction to SAS programming**

Course Number: CTM 517

Lecture:

Instructor:

Office:

Phone:

E-mail:

Office Hours:

Course description:

3 hrs. lecture; 3 credits

An introduction to the SAS programming environment, including program design, importing data, dataset creation and processing, statistical analysis, and creating tables and graphs.

Prerequisites: Department permission.

Learning Objectives: Following completion of the course, the students will have the programming skills in SAS and they will be able:

- a. To write SAS syntax
- b. To importe/exporte data into SAS
- c. To process conditional data
- d. To modify data using functions such as subset and transform
- e. To record data
- f. To analyze and reporte data in SAS

Text:

- 1) The Little SAS Book: A Primer, 5th Edition (Required)
Lora D. Delwiche, Susan J. Slaughter

Grading Policy: Final grade will be determined as follows:

| | | |
|------------|-----|-----|
| Quizzes | 20% | |
| Homeworks | | 20% |
| Exams | | 25% |
| Final Exam | | 35% |

Students who accumulate 97.0% or more points will earn an A⁺, 93.0-96.9% an A, 90.0-92.9% an A-, 87.0-89.9 a B+, 83.0-86.9% a B, 80.0-82.9% a B-, 77.0-79.9 a C+, 73.0-76.9 a C, 70.0-72.9 a C-, 67.0-69.9 a D+, 60.0-66.9 a D and 59.9 or lower an F.

Lecture Schedule (subject to change)

| Date | Topic |
|---------|---|
| Week 1 | Introduction to SAS |
| Week 2 | Understanding SAS syntax |
| Week 3 | Basic SAS programming tools |
| Week 4 | Importing/Exporting data into SAS |
| Week 5 | Creating permanent files in SAS |
| Week 6 | Transforming variables and Recoding variables |
| Week 7 | Conditional processing |
| Week 8 | EXAM |
| Week 9 | Concatenating, interleaving, and merging SAS Files I |
| Week 10 | Concatenating, interleaving, and merging SAS Files II |
| Week 11 | Formatting columns I |
| Week 12 | SAS for statistical analysis |
| Week 13 | Creating reports in SAS Tables and Graphs I |
| Week 14 | Creating reports in SAS Tables and Graphs II |
| Week 15 | FINAL EXAM |

College Policies:

INC Grades:

The following overview is condensed from York's Grading Policies website:

<http://york.cuny.edu/academics/policies/grading-policies>

A student who, because of extenuating circumstances, has not taken the final examination and/or completed the work for the course and has a passing average may be assigned an INC grade. The student, in consultation with the instructor, has up to 10 weeks in the subsequent semester to complete the work and have the grade resolved even if not registered in the subsequent semester. Grade changes resolving INC grades must be received by the Office of the Registrar by the last day of the 10th week of

classes of the subsequent semester (See Academic Calendar for exact due date). Grades received after the deadline will not be processed unless the student has obtained approval from the Committee on Academic Standards.

The grade of INC is not considered in computing the academic index. However, if a grade change is not received by the Office of the Registrar within the above specified limits, the grade of INC is changed to FIN. This grade is considered an F grade when computing the academic index. When compiling the Dean's List INC grades are calculated as F.

W/*WN/WU Grades:

The following overview is condensed from York's Grading Policies website:

<http://york.cuny.edu/academics/policies/grading-policies>

In the case of a withdrawal from a course, three symbols are used:

W, signifying withdrawal from a course without penalty, which is recorded on the student's record after the end of the 3rd week of classes;

*WN signifying that a student never attended the course; and

WU signifying an unofficial withdrawal from a course (see Procedures for Change of Program and Withdrawal from a Course).

In computing the academic index, W and *WN are not counted, but WU counts as a failure.

Policy on Academic Integrity:

York College Policy and Procedures on Academic Integrity can be found at:

<http://www.york.cuny.edu/academics/academic-affairs/academic-integrity-officer/york-college-policy-and-procedures-on-academic-integrity>

Policy on Accommodations for Disabled Students:

Information about the services provided to students at York College can be found at the Office of Services for Students with Disabilities, located in room AC-1G02, and on-line at:

<http://york.cuny.edu/student-development/ossd>

Rationale: Changing AVIA 410 to an upper division writing intensive class is in line with program learning goal 2.4 “Students can differentiate ethical vs. unethical activities, and identify conflict of interest situations and other situations that compromise business integrity,” as well as offering greater opportunity for students to explore subjects discussed in written form. ENG 126 is a prerequisite recommended by the Writing Intensive Advisory Committee for upper-level WI courses. Changing the course prefix to AVIA clarifies that it is in the Aviation discipline, recognized by the College in 2018 with creation of the master’s degree in Aviation. The course description has been changed for brevity and to better reflect actual course content

Rationale: AVIA 230 and 250 are entry level required courses for the degree. The writing courses are not required under the new Pathways. Changing the course prefix to AVIA clarifies that it is in the Aviation discipline, recognized by the College in 2018 with creation of the master's degree in Aviation. The course description has been changed for brevity and to better reflect actual course content

Program Code: 31124

The City University of New York

York College

BUS 410 Ethical Issues in Aviation

Professor: Paul E. Cline
Department: Business and Economics
Office: Academic Core 2B06-D
Email: pcline@york.cuny.edu
Office Phone: 718-262-2512
Office Hours: Tuesday and Thursday 1200-1400

Ethics issues in Aviation focuses on current concerns and trends, to reflect the changes that have occurred under deregulation, with a focus on major themes in civil aviation ethics, theoretical frameworks, employee responsibility, diversity in aviation, and unmanned aerial systems. **THIS IS AN UPPER DIVISION WRITING INTENSIVE COURSE.** All students are required to take three WI

courses before graduating. Two courses must be in the lower division of the curriculum (at the 100- or 200- level) and one must be in the upper division (at the 300- level or above) within the major design (as is BUS 410).

This designation does not change the structure of this course as it has been taught. Rather, it acknowledges that this course meets the standards of a WI course as specified by CUNY and has therefore earned this designation. The formal writing assignments for the course are described below. This work is meant to enhance your understanding of writing as a process and writing for the discipline of Aviation Management.

Prerequisites:

1. Junior status

Required Text:

Hoppe, E. ed. (2011). *Ethical Issues in Aviation*. New York: Routledge, 314 pages (available online at York Library).

Riza, S.M. (2013). *Killing Without Heart: Limits on Robotic Warfare in an Age of Persistent Conflict*. Washington D.C.: Potomac Books, 256 pages.

Sparrow, M. (2001). *The Regulatory Craft: Controlling Risks, Solving Problems, and Managing Compliance*. Washington: Brookings Institution Press. 370 pages (available online at York Library).

American Psychological Association. (2009). *Publication Manual of the American Psychological Association, 6th Ed.* Washington, D.C.: American Psychological Association, 272 pages.

Course Outcomes

1. Understand how ethics can be incorporated into key business decisions
2. Learn to identify common ethical issues in aviation business
3. Identify, analyze, and understand how business people make ethical decisions and handle ethical issues
4. Identify the various ethical issues raised by unmanned aerial vehicles in regards to business, privacy, national sovereignty, and war
5. Gain and develop an understanding of the writing process including topic formation, research, writing, and editing.

Blackboard:

You are required to check Blackboard regularly. Along with your York email it will be the primary form of communication for this class. Not checking email or Blackboard are not excuses for missing important information and/or changes to the schedule.

Writing Requirements:

Writing Intensive courses are subject-area courses that build on the foundation of writing courses in the curriculum. In this course you will practice and expand the skills of reading, critical thinking, and writing by incorporating guided writing assignments.

As a Writing Intensive course, the major component of your grade will be a research project consisting of four steps:

1. Research Proposal
 2. Annotated Bibliography
 3. Rough Draft
 4. Final Paper
-
- A. The **RESEARCH PROPOSAL** is a 250 word (one page, double spaced) summary of your proposed research topic. This assignment is worth 5% of your total grade.
 - B. The **ANNOTATED BIBLIOGRAPHY** is a list of your sources with a short, one paragraph narrative for each item explaining how this source relates to your topic. First give the citation for the source in APA format, then add the descriptive paragraph. There is no set length for this section since it depends on the number of sources you have. In a paper of this length a minimum of 15-20 different peer reviewed and academic sources is normal. This assignment is worth 10% of your total grade.
 - C. The **ROUGH DRAFT** is an imperfect copy of your final paper. This is the most important step in the writing process. Make no mistake about it, writing is editing and this is where the serious work of editing begins. I read each rough draft carefully and make detailed suggestions for improvement. This stage can be painful, but it also the most important. I will edit one draft of the paper. This assignment is worth 10% of your total grade.

- D. The **FINAL DRAFT** is your finished product. It is worth a full 50% of your final grade. Both the rough and final drafts must be in APA format, with one inch margins, 12 point font, and include a title page and list of references. The final product is to be a minimum of 5000 words (20 pages) in length, not including Title Page and References.
- a. Excessive use of figures and illustrations is not appropriate under APA. The *Publication Manual of the American Psychological Association, 6th Ed* is very specific about when and how figures and illustrations may be used. Please note, figures and illustrations are not included in the word and page count. If they add value to the paper, use them; if not, leave them out.
 - b. A word on length. The paper is a minimum of 20 pages of solid academic writing. That said, quality is better than quantity. You will not receive a better grade because you tried to increase your page count with extraneous filler. Make every sentence and paragraph count.

A word of caution: this is a writing intensive course. Procrastination is not an option. You will not be able to complete these assignments in the week running up to the due date. Substandard work will result in you failing the course and having to retake it before graduation. **Make a rigid timeline and stick to it.**

Electronic Devices:

I encourage you to use your laptop or tablet in class. Any use of these devices for other than course work will result in you being asked to leave the class and any points awarded that day forfeited.

There is absolutely **NO TEXTING** in class. Not only it is extremely rude, it is a distraction. If you must answer a text or call, quietly exit the room by the back door and deal with the emergency. If you have to leave class twice, you are no a distraction and will be asked to leave and any points awarded for that day will be forfeit.

| GRADING: | Max |

| F | 0-59% |

Academic Honesty Policy:

A fundamental principle of academic, aviation and community life is honesty. Violation of this ethical concept will result in penalties ranging from a grade of "F" in the course to dismissal from York College. Academic dishonesty includes but is not limited to: cheating, plagiarism, misrepresentation of student status, and resume falsification. Plagiarism includes, but is not limited to: the use by paraphrase or direct quotation, the published or unpublished work of another person without full and clear acknowledgment; unacknowledged use of materials prepared by another person or agency engaged in selling or otherwise providing term papers or other academic materials; and commercialization sale or distribution of class notes without the instructors' permission. The use of unauthorized material, communication with another student during an examination, attempting to benefit from the work of other students, or attempting to aid another student, and other similar behaviors which defeat the purpose of examinations and individual assignments is unacceptable. Please note that all cases of plagiarism will be turned in to York College administration and student services organizations that deal with unethical behavior.

Accommodations:

It is York College policy to provide on a flexible and individualized basis reasonable accommodations to students who have disabilities that may affect their ability to participate in course activities or to meet course requirements. If you have a documented disability that requires an accommodation, please notify me immediately.

Diversity:

The Aviation Management curriculum represents the contributions of diverse populations and reflects that knowledge comes in a variety of forms and that students possess a multitude of learning styles. Students from all backgrounds and perspectives are welcome in the class.

Weather Days:

The best way to receive the latest information about weather closings is through CUNY Alert (<http://www.cuny.edu/news/alert.html>); to register, you go through the CUNY portal. You can then choose where to have messages sent. Once CUNY Alert goes into action, the weather closing is then posted on the York website. The call/message comes somewhere between 5:00 and 6:00 am. The tough decision is when the College is open but the weather is prohibitive for your commute. Here, you have to exercise your best judgment. There is no heroism in putting yourself and others at risk! Remember that as an Aviator good judgment will keep you and others alive.

Please provide an executive summary of your proposal

The proposed Movement Science revised major design streamlines the program by eliminating concentrations (two) . The proposed revision to the MS 488 and MS 489 fieldwork courses is to add proof of a valid First Aid/CPR certification or equivalent coursework as a pre-requisite. Both changes are in accordance with CoAES accreditation requirements.

Goal number two for the Aviation Management BS degree states, "Creating graduates that demonstrate competency in the various areas of Aviation Management." Having two 400 level course dealing with airport and aviation management as program electives is counter to this goal. In order to remain credit hour neutral, two lower division classes are moved to program elective status. Also adding AVIA 100, 200, 300, & 400 and BUS 210 to the list of approved Program Electives to offer greater flexibility to students. Changing BUS 410 to an upper division writing intensive class is in line with program learning goal 2.4 "Students can differentiate ethical vs. unethical activities, and identify conflict of interest situations and other situations that compromise business integrity," as well as offering greater opportunity for students to explore subjects discussed in written form. Some courses changed to hybrid in order to better meet the scheduling and learning needs of our increasingly diverse student population (more adult learners). Finally, changing the course identifiers to AVIA to better streamline branding and consistency with the Masters in Aviation and Dispatcher Program.

| | |

Rationale:

Course changes made to better meet Program Learning Goals. Changing the course prefix to AVIA clarifies that it is in the Aviation discipline, recognized by the College in 2018 with creation of the master's degree in Aviation. The electives are being increased to accommodate new department offerings

Program: Minor in FAA Dispatcher

Effective: Fall 2020

| From | | | To | | |
|--|-------------|-----|---|-------------|--------|
| Course | Description | Crs | Course | Description | Crs 16 |
| No such minor currently exists at the College. | | | AVIA 100: Private Pilot Ground School | | 4 |
| | | | AVIA 200: Instrument Pilot | | 4 |
| | | | AVIA 300: ATP/ADX Dispatcher Written Exam | | 4 |
| | | | AVIA 400: Dispatcher Practical Exam | | 4 |

Rationale: The FAA Dispatcher Certification courses are approved as stand-alone courses leading to certification if the student desires. The minor will allow students to take the courses as a minor instead of general electives.

APPENDIX

B

Governance Committee

William Ashton

November 26, 2019

2018-2019 Charter Changes

- Resources Committee
 - Administrative representatives
 - 2 member: VP Finance & President's Choice
 - 2 member: President's choice

2018-2019 Charter Changes

- Charter Amendment Process
 - Removes Student and Faculty Referenda
 - Remove Senate Petition
 - Remove Community Petition

2018-2019 Charter Changes

- Charter Amendment Process
 - Adds Governance Committee
 - *identifies* the appropriate article and section for the *location* of the proposed charter amendment,
 - introduces the proposed charter amendment in *language* suggested by the committee for the charter,
 - identifies *other parts of the charter* which may need to be *changed* if the proposed charter amendment is adopted,
 - proposes language to change these related parts of the charter, and
 - summarizes the *effects* of the proposed charter amendment.

2018-2019 Charter Changes

- Number of Faculty Senators
- Takes effect: **May 2020 departmental elections**

| Full-time faculty size | Number of senators |
|------------------------|--------------------|
| Up to 10 | 1 |
| 11 to 20 | 2 |
| 21 plus | 3 |

- OAA & Election Committee will inform each department in April of the number of senators to elect

2018-2019 Charter Changes

- Number of Faculty Senators
 - In the event that a department with multiple disciplines is entitled to two or more senators, the department will be *encouraged* [italics added] to elect senators from different disciplines.

2018-2019 Charter Changes

- Number of Faculty Senators
 - Two part-time faculty members shall be elected as senators to serve in the Faculty Caucus and Faculty Senate to represent part-time faculty.
 - Must be teaching
 - OAA does election
 - Election completed by 5/10
 - Cannot be from same department
 - Encouraged to be from different Schools

2019-2020

- Academic Standards
 - Request to remove grade change petition
- OAA
 - Request to explore adding graduate student senators

C

Need Your Input: December 2019 Senate Meeting

Office of Institutional Effectiveness & Strategic Planning at York College <noreply@qemailserver.com>

Wed 11/20/2019 11:20 AM

To: Yolanda Small <YSmall@york.cuny.edu>;

CAUTION: This is an email originated outside of CUNY.edu. Do not click links or open attachments unless you recognize the sender and know the content is safe. Never send login credentials, financial or sensitive information by email. Report suspicious email to reportspam@york.cuny.edu

Dear 2019 Senator,

Proposal: Change the date of the final Senate meeting of 2019, from Tuesday (12/10) to Thursday (12/12).

Factors to consider:

1. IP Eanes and her team need to attend a middle states conference. Given our recent struggle with middle states and her newness to that struggle, her attendance at the conference is good for the College. She also values her role as Chair of the Senate and would appreciate the opportunity to continue to Chair the Senate even when faced with competing obligations to the college.
2. Outcomes of the middle states conference can be shared if the Senate meeting is moved two days later than originally planned.
3. While it is possible for the Vice Chair to lead the Senate meeting in the absence of the Chair, it has historically only been done in emergency cases, not planned in advance as in this situation.
4. SGA already had the Christmas Tree/Menorah Candle lighting planned for 12/10 as they announced during the last Senate meeting. While they were going to make both commitments work that day, they appreciate the chance to focus on the tree lighting event. As such, SGA fully supports the date change.
5. We need to achieve quorum (35 senators) to do business in the Senate, so you're being asked if you can possibly prioritize this Senate meeting over whatever else you had planned during club hours on 12/12.

Action: Please reply to the survey by Nov. 27, 2019 at 5 p.m. to state whether you are willing to support the date change by attending the meeting, if it is held on Thurs 12/12. The assumption is that you would have attended the Tuesday 12/10 meeting anyway, so it's not a vote for date preference, but a vote for date change.

While the message is long, I underlined the key points to enable you to quickly scan and still be informed enough to reply to the survey. Looking forward to 100% participation on the survey.
